

FOR CONGRESS.
COL. JOHN P. RICHARDSON.
FOR THE STATE SENATE.
COL. JOHN C. SNUIT.

We are authorized to state that the following gentlemen have consented to be candidates for the House of Representatives at the ensuing election—
LAWRENCE L. WHITAKER,
JOHN D. MURRAY,
M. M. LEVY,
LEWIS J. PATTERSON,
JAMES B. CURETON.

"Notices of Florida and the Campaign," by M. M. CONEX, Esq., an officer of the left wing, will shortly be given to the public. We have no doubt from the competency of the author, and the opportunity he has had, in collecting materials for the purpose, that it will be a highly interesting volume.

The sum of three hundred and fifty dollars has been ascertained by the committee, appointed for the purpose, from among the Trustees of the South Carolina College, to be amply sufficient (independent of books,) to defray the expenses of a student during his college year—the furnishing of a room and pocket money included. The committee have made a solemn appeal to parents and guardians not to pay any account contracted beyond this estimate. Those who feel an interest in the future welfare of their sons, or for the prosperity of the college should act accordingly.

We are informed by our late papers that the Seminoles are again committing depredations on the lives and property of the people of Florida.—The people residing on the St. John's are fleeing to Picolata for protection—those in Jacksonville to St. Mary's. It is the determination of the Indians to lay waste the country on both sides of the St. John's. We refer our readers for further information on this subject to another column of this day's paper.

The noted chief BLACK HAWK, is said to be committing depredations on the inhabitants of Wisconsin Territory, at the head of 6000 warriors. The Governor of the Territory had organized a force of 1000 with the intention of meeting the savages.

TEXAS

Warlike preparations are rapidly progressing in this infant Republic. The army is estimated at 3000, but from the great influx of volunteers from the western and southern States, and the rising emigration of the inhabitants of Texas, it was thought their forces would in a short time be sufficient to compel the perfidious hirelings of Mexico, again to abandon the country. SANTA ANNA is said to have written to President JACKSON, asking him, or the Government to be his security for any treaty he may make with the Texans, and also promises the safety of Texas, by issuing such proclamation as would induce the Mexicans to evacuate the country without striking a blow. The Texans are well provided with provisions and munitions of war, and it is said, would rather fight than not. The Texian navy captured three American vessels with provisions for the Mexicans, and after confiscating the property, released the vessels. An unsuccessful attempt had been made on the life of SANTA ANNA, by a person intoxicated. Upon the whole the cause of Texas may be considered as "looking up," and heart cheering to the patriots.

TEXIAN ENTERTAINMENT.

On Monday, the 15th inst. a dinner was given at the American Hotel, by a number of the citizens of New York to several distinguished individuals who were then in the city, and who have manifested an interest in the success of the people of Texas. Among the guests were the Hon. Wm. C. PRESTON and Gen. HAMILTON, who, with several others, addressed the meeting on the subject of the contest between the government of Mexico and the inhabitants of Texas.

Mr. PRESTON in his remarks riveted the attention of the whole company, and fully sustained the high reputation he has acquired as an orator.

The New York Star, in speaking of the entertainment says:
"We are gratified to hear, on the part of the distinguished Southern and Western orators present, particularly from Col. Preston, Gov. Hamilton and Mr. Peyton, the most devout aspirations for the preservation of our happy Union."

And further adds—"Behind the chair of the President was the Texian Standard on a blood red field with a large white star. On each side of it in majestic folds hung the American colors to whose beautiful field of azure blue, Gov. Hamilton feelingly alluded in his speech as containing 'a ample room and verge' to hold therein another bright star in the proud constellation which now shone upon it. Tremendous cheers were elicited by this remark."

The following were among the toasts given on the occasion:
By Col. PRESTON.—The western and pacific progress of our language and our liberties.

By Gen. HAMILTON.—The title by which our friends in Texas have won that country—the title of civilization, liberty and valor, over ignorance, intolerance and tyranny.

By Mr. PRESTON.—Texas, as "bone of our bone, and flesh of our flesh." May she be united to us by indissoluble bonds of Union.

THE WHEAT CROP.

Information has been received by an enterprising individual of Baltimore, who took the trouble to address, on the subject, the several postmasters in the grain growing states, that not more than two thirds of a crop can possibly be expected. Only five counties among all those composing the grain states have very good crops—this information is stated to be correct.

In New York on the morning of the 20th inst. a fire broke out in the printing office of the American Bible Society, which was not subdued until all the materials were destroyed, consisting of eighteen power presses, a steam engine and all the necessary apparatus, together with the furniture, all of which belonged to Mr. HENSHAW, the conductor of the establishment, whose loss is supposed to be from 15 to 20,000 dollars, 5000 of which is insured. The building, although not destroyed, was much

injured, the insurance on which will, fortunately, more than compensate the damage.

The mangled body of an infant was found in the woods about ten miles above this place, by several persons attracted to the spot by a collection of buzzards. An inquest was immediately called, and a female residing in the neighborhood was on suspicion seized and lodged in jail.

The spirit of fanaticism is still abroad in the northern states, if we may judge by the paltry effusions of one or two of the prints of that portion of the union. The kindred sympathies of the editors of the New York Journal of Commerce and the Providence Morning Courier, assimilating the murders, arson and robberies of the Seminoles and Creeks, to the patriotism of the Greek and Swiss, evince so little knowledge of the true course pursued by the merciless savage, that they deserve pity for their ignorance and contumely for their arrogance. Did the Greek wage a war of extermination against unoffending women and children?—Did the Swiss, an assassin-like, & barbarous war, for the sake of pillage, with a blood thirsty determination to revenge themselves, by consigning to the worst of cruelties, the innocent without distinction to age, sex and condition? No!—Theirs were wars of liberty. Their cause was the cause of freedom against tyranny, and not the pitiful subterfuge given by the arch fiend, JIM HENRY, to palliate his nefarious deeds—that himself and his followers were impelled to their course, from a state of starvation—a poor excuse indeed, for a people possessing the finest lands, and the convenience of obtaining all the necessary implements of husbandry. Compare such murderers to Patriots indeed!

The Hon. Mr. McKIM, a member of Congress from the City of New York, has given in his, each the following just answer to the question so often asked by the opposition—what has the administration done?

"What has the administration done?—Let your foreign and domestic policy answer. Look to your seas, unlooked to the commerce of your country—to channels regained or discovered for the outpouring of the industry of your farmers. Look to your industries, wrong from European power, and your country respected amongst the nations of the world, by carrying out the maxim of American diplomacy, that we will ask for nothing but what is right, and submit to nothing which is wrong. And are these no evidences of wisdom and integrity in your domestic policy? Where is the discharge of your national debt? Where the relief from taxes to the amount of millions by the reduction of your tariff? Where the enlightened policy with regard to your Indian tribes, preserving them from annihilation, and giving quiet to your citizens? Where the effort to restore the gold currency? Where the triumph over a gigantic institution, which had chosen a nation for its antagonist? By its acts let the administration be tried, and I have no doubt of the approving verdict of the country. In a career of unexampled prosperity, with the richest stores of plenty, and at peace with the civilized world, is the position in which the present Executive, in the last year of public career, finds the nation; and well may be applied to him the language of the Roman Consul, that for many of these benefits we are indebted to the wisdom and integrity of one man.—In the recollection of his countrymen his actions will be cherished. On their tongues shall his actions grow, and on their records shall they arrive at age and strength; and the same day which brought deliverance to the country, shall transmit to posterity the remembrance of his administration."

In noticing the return of the volunteers who were sent in pursuit of the Indians that were making their way from Georgia to Florida, the Columbus Sentinel, of the 22d inst. says:

"The volunteers were followed in the rear by a party of friendly Indians; dressed in true Indian style, fantastically enough which produced a show half Military, half farcical. The only trophy of the war which we had the luck to see brought back in triumph, was a little bob-tailed piney woods sheaf, which the last man of the Indians had elegantly swung across his back and which squealed manfully at every step the Indian brought. We suppose the Indian got him at the camp of the hostiles, on the Chickasahatchee; and, from the way he held on to him, he no doubt intends to emigrate him to Arkansas. Many a hearty laugh did this Indian and his bob-tailed sheaf produce, but he minded it not; he hung on to him pertinaciously, as much as to say—Ecce signum, Chickasahatchee, hic hogum in swampum cum atum."

RECIPES.

To cure the poison occasioned by the sting of a bee, wasp, hornet, &c. wash the part affected with water of ammonia (hartshorn) and if much diseased, dissolve a piece of carbonated ammonia (the size of a pea) in water and drink it.—This remedy has relieved persons, when the sting had nearly caused mortification.

Cure for cancer.—Bean leaves and blossoms gathered while the dew is upon them—bruise them and press out the juice—to one pound add honey one pound and cream one pint—simmer in an unglazed vessel till it is reduced to a salve. Rub this on the part affected three times a day.

Cure for dropsy.—Take equal quantities of burnt copper pulverised, pulverised salt petre and soft turpentine, make it into pills, and take one three times a day for three successive days, with an intermission of three days; and renew the course. The pills should be rolled in flour or sugar. Abstain from all exciting liquors.

We have the pleasure of stating, says the Fayetteville (N. C.) Observer of the 14th inst. that a Cotton Factory, with 500 spindles, has been erected in this town, by Charles P. Mallett, Esq., and is now in full operation. The first work upon this establishment was commenced about eight

months ago, and the rapidity with which it has been completed, not less than the practical character of the owner, leaves no doubt of its complete success. The Machinery is all new, of the latest improvement and highest finish. The building is calculated for 1000 spindles, and it is the intention of the proprietor to procure the additional as soon as possible.

It is worthy of remark that more than half of the entire imports into the U. S. from foreign countries are free of duty. Nevertheless the surplus revenue increases upon us like a flood.—N. Y. Jour. Com.

Colonel Heliman did not live to learn that he had been advanced and honored by the President. He has left a helpless wife and six young children; the oldest only eight years of age, and all without any stay but Heaven. This brave officer's wealth was his character & commission. If he had lost his life in the battle he fought so valiantly, his wife would have enjoyed his half-pay for five years; but, sinking under his untiring labors in a poisoned atmosphere, his family are shut out from all provisions by the Government.

EAST TENNESSEE VOLUNTEERS.

We learn verbally from Athens, that the 1st Regiment of our Brigade had been ordered to occupy a position within that part of the Cherokee nation lying in North Carolina—that the 1st Battalion of the 2d Regiment were ordered to Ross Landing, on the Tennessee river, and the 2d Battalion of the same Regiment were to remain at or near Athens.

Knoxville Register.

Wealth of Manchester, England.—President Humphrey, in one of his letters from England, says:

"Manchester is, next to London, the largest town in England, and is rapidly increasing both in wealth and in population. A distinguished banker in Liverpool assured me, that the clear profits of business in Manchester could not be less than twelve millions sterling, (about sixty millions of dollars,) per annum. As the town is continually extending, it bids fair in a few years to swallow up all the manufacturing villages in the vicinity. Great fortunes have been made and are making there, and nowhere out of the metropolis is solid capital supposed to be so large, as in Manchester. She is wont to say of her rival sister upon Mersey, that she is able to buy out the whole town of Liverpool, and keep it on hand."

Mississippi.—The growth of this State, during the last five years, says the Grand Gulf Advertiser, has been almost unparalleled—the population within that time having more than doubled, and the wealth more than quadrupled. There are now 56 counties in the State, and the population is believed to amount to about 328,000.
